## PROFESSIONAL SUMMARY

Technical Support Engineer with ~2 years of hands-on experience supporting mission-critical IT infrastructure at URSC/ISRO, covering hardware diagnostics, OS installation and configuration, LAN/network troubleshooting, and Fortinet firewall administration. Engineering graduate (ECE) with strong fundamentals in embedded systems, Linux, and scripting (Python, C). Known for structured troubleshooting, clear communication, and reliable end-user support in high-availability environments.

## PROFESSIONAL EXPERIENCE

**Technical Support Engineer — URSC / ISRO (via Sree Venkateshwara Enterprises)** *Bengaluru | Mar 2022 – Dec 2023*

- Delivered L1/L2 technical support for computer systems, peripherals, and network issues across a secure, high-availability government research environment.
- Installed, configured, and maintained Windows and Linux operating systems, hardware, and supporting IT infrastructure.
- Performed hardware diagnostics, preventive maintenance, and data recovery, reducing repeat incidents and system downtime.
- Troubleshot LAN connectivity, IP addressing, and system-level network issues; supported day-to-day network management activities.
- Assisted with Fortinet firewall operations, including access control, security monitoring, and issue resolution.

## TECHNICAL SKILLS

- **Frontend**: HTML, CSS, JavaScript, React.JS.
- **Backend & API**: Python, C, FastAPI, REST API.
- **Database & SQL**: PostgreSQL, MongoDB, SQL.
- **DevOps**: Docker, RabbitMQ, Kubernetes, Git, CI/CD.
- **Tools & Platforms**: Supabase, Git/GitHub, Vercel, Flask, Django, Firebase.
- **Embedded & Hardware**: ESP32, Arduino, Raspberry Pi, STM32, Microcontrollers, IoT, UART, SPI, I2C
- **IT Support & Infrastructure**: Hardware Diagnostics, OS Installation & Configuration (Windows, Linux/Ubuntu), Preventive Maintenance, Data Recovery, Peripheral Support
- **Networking & Security**: LAN Configuration, IP Addressing, Network Troubleshooting, Fortinet Firewalls, Access Control, Monitoring

## EDUCATION

**BE, Electronics & Communication Engineering — R V College of Engineering, Bengaluru** *2023 – 2026 | CGPA: 7.83*

**Diploma, Electronics & Communication Engineering — Govt. Polytechnic, Immadihalli** *2019 – 2021 | 83.00%*

## KEY PROJECTS

**Solar Enerlytics - Grid-Integrated PV System with Weather Forecasting**

- Developed an ESP32-based IoT energy management system with ML-assisted decisions and a full-stack web/mobile platform (role-based access, analytics, billing, Supabase, PostgreSQL).

**VaidyaMithra - AI-Powered Hospital Management System**

- Built a full-stack hospital management system with role-based access and an LLM-powered symptom assistant; integrated Firebase, real-time updates, notifications, AI chatbot, and geolocation-based hospital suggestions.

**Namma Raitha - Hyper-Local Agri-Marketplace**

- Developed a full-stack farmer-buyer platform with role-based dashboards, inventory, geolocation search, CRUD operations, real-time analytics, multilingual support, and ratings/reviews.

**Smart Waste Management System**

- Developed a React Native platform for real-time waste collection monitoring, live tracking, geolocation, and role-based operational control.

**Trip Expense Tracker - Group Finance App**

- Built a mobile app for real-time group expense and balance tracking with Cash/UPI support, quick expense logging, spending analytics, history, and budget alerts.

## ADDITIONAL INFORMATION

- Interests: Complex System Design, Full Stack Integration, Application Development, Database Management, Troubleshoot.
- Languages: English, Kannada, Hindi, Telugu.
